

ALLAN SANG

Backend Software Engineer | Python | Django & Flask | APIs

+254 705 972 700 | allenkays@tutanota.com | Nairobi, Kenya | github.com/allenkays | allenkays.vercel.app

PROFESSIONAL SUMMARY

Backend-focused Software Engineer with a Computer Science degree and hands-on training from ALX Software Engineering (Backend Specialization) and the Meta Back-End Developer Professional Certificate. Experienced building APIs, database-backed applications, and facial-recognition systems in Python (Django, Flask), with a DevOps background in CI/CD, Docker, and Kubernetes that supports full-stack delivery ownership.

CORE SKILLS

Python (Django, Flask) | REST APIs | SQL/SQLAlchemy, PostgreSQL, MySQL, MongoDB | Git & GitHub | Docker & Kubernetes | CI/CD (GitHub Actions, Jenkins) | JavaScript, TypeScript, React, Next.js | Go | Testing & Documentation

PROFESSIONAL EXPERIENCE

Face-X - Facial Recognition Web App (Software Engineer) | ALX Software Engineering 06/2023 - 10/2023

- Built a facial recognition web app with Python, Flask, SQLAlchemy, and OpenCV, achieving high detection accuracy.
- Designed backend logic and database models for efficient storage/retrieval of facial data.
- Maintained two code repositories, strengthening collaboration and version-control practice.
github.com/allenkays/Face-X

Software Developer | DevOps Engineer | E-Kraal Innovation Hub 06/2019 - 07/2022

- Developed and implemented network management tools for SME environments, improving scalability.
- Containerized legacy and greenfield applications with Docker, accelerating deployment cycles by 20%.

DevOps Capstone Project | Coursera (IBM DevOps & SE Program) 01/2025 - 02/2025

- Built a CI/CD pipeline with GitHub Actions and orchestrated services with Docker/Kubernetes.
- github.com/allenkays/devops-capstoneproject

EDUCATION

B.Sc. Computer Science, Moi University (2013-2017)

CERTIFICATIONS

Meta Back-End Developer Professional Certificate | ALX Software Engineering - Backend Specialization | IBM Applied DevOps & Software Engineering | Project Development in Python (Microsoft/Coursera)
